PERSONAL SUMMARY

Antonio Banze is a smart and young skilled professional. He is eager to learn and adapts quickly to new situations. During his career, he has been known for creating innovative solutions to different problems.

He is now in career-change for the past 14 months and he has found his passion in technology industry. He loves being involved during every phase of the development process, including coming up with potential ideas that help different sectors to have great products. His flexible personality and natural superiority make him an excellent player in any industry.

Right now Antonio is looking for a suitable position with a company where outstanding performance is recognised and where he can work on a variety of high development projects.

Job History

- **Junior Web developer**   June, 2021 – Sep 2020

DS Solar, Mozambique

I worked for DS Solar Mozambique for 4 years as Operational Manager. And when I decided to change my career path, they were looking for web developers, so I joined the IT Team with a contract of 3 months. This helped me a lot to have experience in working with other web developers.

- **Front-End Developer (Freelancer)**   Oct, 2021 – Mar, 2022

Stark Systems Moçambique (SAS), Mozambique

DS Solar, Mozambique

After leaving DS Solar for other adventures, I started freelancing my skills to Stark Air Systems. A company that sells electrical equipments and I also continued providing my web dev support to DS Solar as a freelance activity.

- **Junior Front-End Developer** (3 months contract)   May, 2022 – July, 2022

InteliData Moçambique, Mozambique

Currently I am working as Junior web dev (Front-End) at InteliData Mozambique. Working here is exciting and I have great working environment but my contract is coming to the end

by July 6th. As I love new challenges, I am currently open for new opportunities beyond Africa. At InteliData, I have learned how to use Advanced state management (React context Api), Next.Js best Practices (like file-based routing, data fetching) and lastly, we have used Next.Js as back-End endpoint.

Education & Professional Training-Programs

- **Bsc Env. Science**   2016 – 2020

  I have a bacherlor degree in Physics with some computer science subjects. I found out that software is what I want to do for living.

Skills | Abilities | Competences
